

The new Hash year began yesterday with a big splash, hash splash shooters and a pool in the courtyard were just the set up for a wonderful, wet , long, loud and fun filled AGPU for Rocky City.

It all started pretty quietly with a couple of social drinks and then the circle, which was easily the best of the year.

Uncle Fester and the best looking RA in Rocky City H.J. gave their reports and thanks to the club, followed by reports from Smallgoods, Cavewoman and Thunder.

This all took quite a while and a little bit more alcohol was quietly being consumed by most of us, with shooters in between for the usual Hash circle charges.

By the time we all had to remember the best dob of the year and had consumed yet another round of shooters, all professionally prepared and served by Nummy and his helpers, Casper , Hotlips and Smurf, the noise level had lifted and Uncle Fester was having a hard time keeping us all in order !

Then the new committee was sworn in and Snowy let us all know he's making a few changes, and the gay guy is looking like he's taking on the GM position with enthusiasm, so look out everyone, I think he has pay back on his agenda !!!!

Moppy had his first official duty with a name change for Casper, who knelt before the new RA and will henceforth be known as I Lean or maybe Eileen,...since I am writing this with a wee hangover I'm finding some details hard to recall !

Koowala committed herself to a complete personality change when she announced in the circle that all people over 60 are boring, so make the most of the rest of your 50's Koowala, we are keeping you to that statement !!!!!

However she did redeem herself when she was desperately trying to figure

out how to phone America so our Long Time No See Boogie could hear us all partying later !!

The circle was so long we had to have a toilet break and more time out to grab another drink each, but eventually we got through it all, had a few more drinks and a hilarious rehearsal for Hobart, with Silver coming in with a white walking stick (instead of Moppy)and I Lean taking on Snowys role.

After yet another drink break, we all piled into Anything's recording room and recorded a totally professional sounding Shitty Trail song. It took a couple of remakes as one version had the clear sound of Flutter singing sweetly away with all of us in the background, which resulted in us all falling about laughing and a quick reshuffle in the room as she made sure she was well away from the mike !! I'm sure the other recordings were a technical fault and would have had nothing to do with the fact that we were all a bit pissed by then !!!

Well, all that was left after that was to eat, drink and be merry, and as hashers we all do that exceptionally well, so the rest of the afternoon / night went off with fabulous makes you want to dance music by the wonderful Anything.

The pool was just too tempting for hashers in party mode, and soon there were people getting thrown in and others running around with buckets of water, Whoremoan managed to stay dry till quite late and so did Knickerless, and although I got wet due to big wet hugs and buckets of water, I did manage to fly under the radar and keep the blonde Black U curls dry !!

There were many funny and mentionable (and some unmentionable!) things that happened but as a Scribe with a hangover, that's all I can remember.

I think we are all looking forward to another fabulous Hash year with Rocky City, thanks to everyone who contributed last year, last night and to those committed to making this year every bit as much fun as last year.....but we have some big shoes to fill !!!

On On

Black U
